

\$75 Rebate

The following machines are eligible for a \$40 rebate, for customers who purchase water from a Saving Water Partnership utility. An additional \$35 rebate is available for electricity customers of Seattle City Light, and Puget Sound Energy.

Compared to a standard washer...

One Star: reduces both energy and water use by 28% or more

Two Stars: reduces both energy and water use by 36% or more

Three Stars: reduces both energy and water use by 44% or more

One Star	Two Star	Three Star

notes:

- This list is for Seattle City Light electricity customers. Puget Sound Energy offers a \$40 rebate on some additional Energy Star labeled machines.
- If the clothes washer is not listed above, it is NOT eligible for Seattle City Light's portion of the rebate, or for the Saving Water Partnership rebate.
- * Indicates there may be additional numbers or letters at the end of the model number.
- Ventless washer/dryer units are NOT on this list** because they lose most or all of their water savings when water is used during the drying cycle
- Machines in each category must meet that category's savings criteria for **both energy and water**. For example, some of the "two star" machines save enough energy to be considered "three star" for energy alone, but the "two star" water-efficiency of the machine keeps it as a "two star" rather than a "three star" machine.

This list can be found at www.savingwater.org
